About Elecrow

Elecrow is a company specializing in the R&D, design (prototyping), and manufacturing of electronics. Founded in 2014, the company has grown to become a leading supplier of open–source hardware and electronic components, offering a wide range of products and services to customers around the world.

Elecrow Partner Seller

Elecrow partner seller program is enabling you to Manufacture and Sell your products at Elecrow. Anyone who can make DIY electronics and projects, whether college students, individual makers, DIY electronics hobbyists, hackers, tech geeks, business groups, startups, or even tech novices, as long as you have the enthusiasm to create tech projects, is welcome to join as a partner seller! Elecrow offers a turn–key business platform with free storage/promotion,order fulfilling, and drop ship services.

Sell On Elecrow, Start Your Business!
What Elecrow Provides

Manufacturing
Elecrow helps you with PCB manufacturing/Assembly & other production services.

Free Warehousing
Free warehousing and stock management for your products.

Global Logistics
International logistics services.

Order Processing
Elecrow fulfills your sales orders and send the parcels to your end customer.

Easy to use
Fewer steps to sell on Elecrow.

More Benefits
Elecrow only charges 5% of the sale (excluding shipping).
