

## What's the Elecrow partner

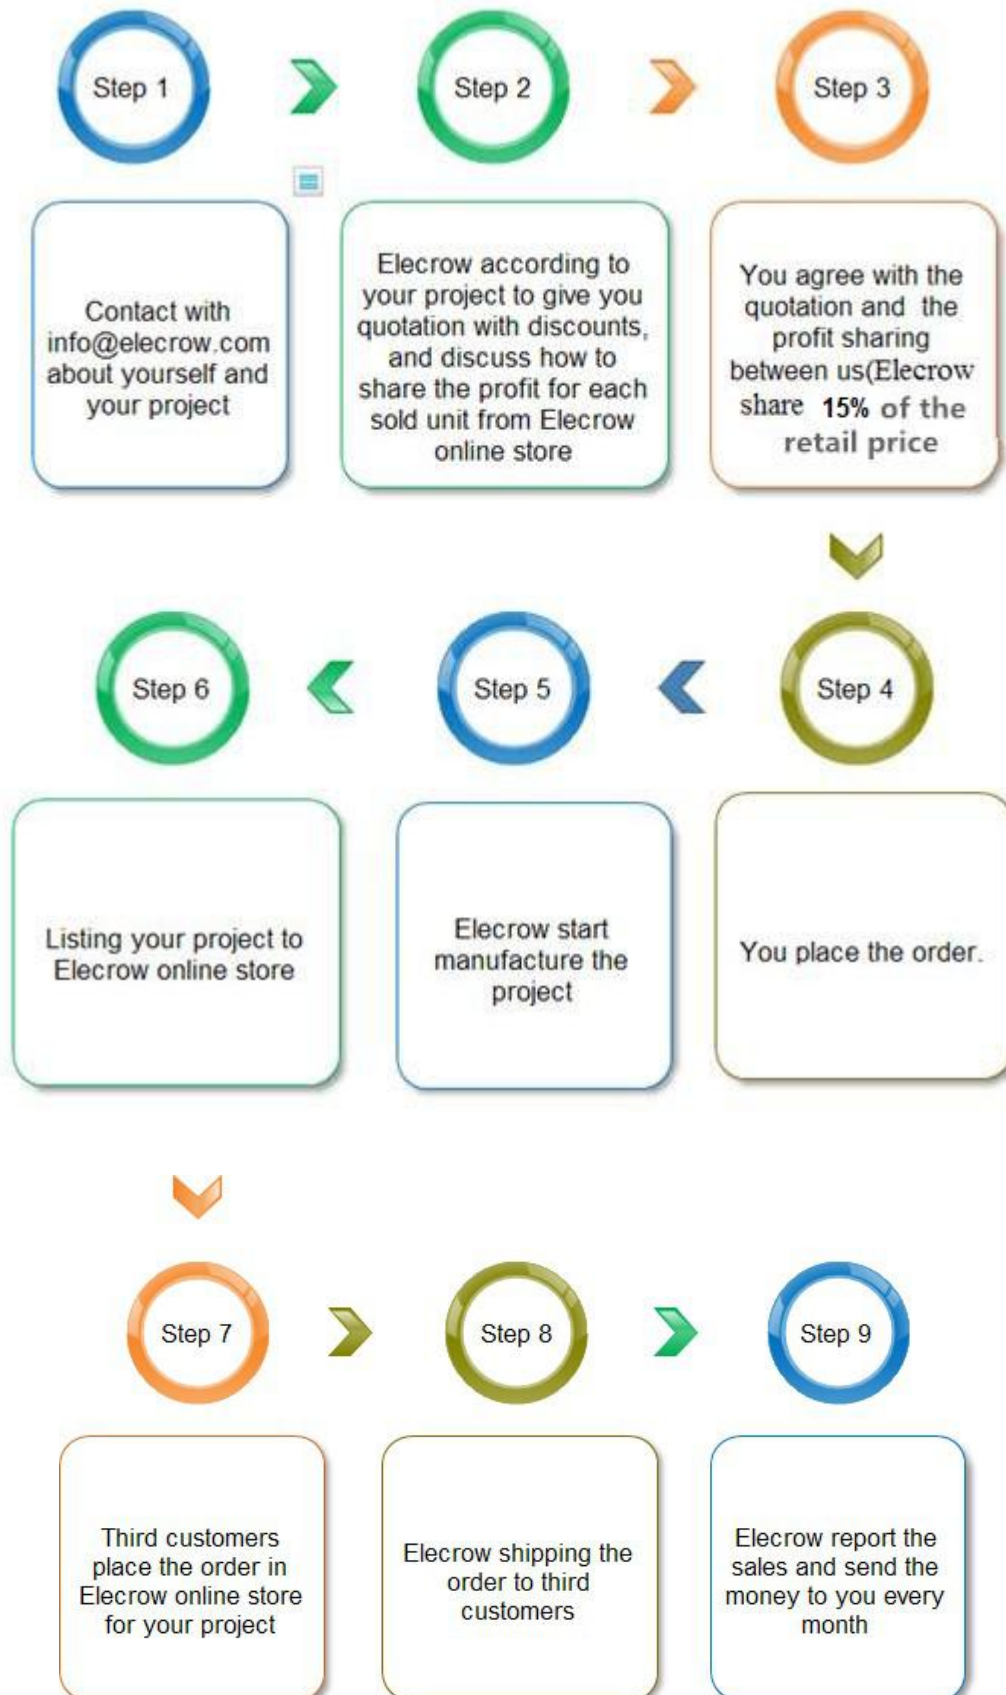

Many designers & startup teams may have encountered this problem: The product designing & development have proceeded smoothly, but it comes out a big problem for production: PCB, Parts Sourcing, Soldering, Quality Control, Logistics, Payment, these trivial but complicated issues waste so too much time and effort.

The service of "Elecrow partner" was used for solving these kinds of problem. Build a long term cooperation with Elecrow, we bring your prototyping to market!

## How it works

The steps as follows:

## What's the benefit our service can bring to you?

### Save your time

You don't need to engage in the works that you are not good at, such as online store maintenance, order management and logistic solution. you can focus on your project designing, and we will do the rest.

### Extending your market

Elecrow support worldwide shipping, include registered airmail and the most famous express such as DHL/FEDEX/UPS/EMS/TNT, safe and super fast, extend your market all over the world!

### Save your money

Benefit from the Shenzhen Electronic market and the human cost, the cost of the project will be greatly reduced, we will give you a more concessional price for the PCBA service.

### Make you easier

You don't need to suffer from the boring problem anymore such as order complaints, payment disputes and the shipping lost.

## Terms of conditions
